

Theme: Global Aspects in Traditional Medicine: Progressing to the Future

Welcome to all Renowned Personalities!!!

Scientific Federation is pleased to announce 2nd World Congress and Expo on Traditional and Alternative Medicine during June 14-16, 2018. We are delighted to welcome all the delegates and the guests to join this three day event at Rome, Italy

Traditional medicine also known as indigenous or folk medicine, comprises medical aspects of traditional knowledge that developed over generations within various societies before the era of modern medicine. The World Health Organization defines traditional medicine as "the sum total of the knowledge, skills, and practices based on the theories, beliefs, and experiences indigenous to different cultures, whether explicable or not, used in the maintenance of health as well as in the prevention, diagnosis, improvement or treatment of physical and mental illness..
